

# Public Health Announces 119 Additional Positive Cases of COVID-19 Among Delawareans; 2 New Deaths

SMYRNA (May 24, 2020) – The Delaware Division of Public Health (DPH) is announcing two additional fatalities related to coronavirus disease 2019 (COVID-19) and is providing an update on the number of positive cases and recovered individuals. All data reported through the daily updates are based on data received as of 6:00 p.m. the previous day.

DPH is providing the following guidance for individuals who have questions about coronavirus or concerns about persons violating the Governor's State of Emergency Orders:

Individuals who have complaints about out-of-state individuals violating the Governor's State of Emergency Order, or violating the public gathering restrictions, should contact state or local law enforcement. Concerns that a businesses may be violating operating restrictions should be directed to: [COVID.D0J@delaware.gov](mailto:COVID.D0J@delaware.gov). Questions related to business reopenings or operations as businesses reopen should go to [COVID19FAQ@delaware.gov](mailto:COVID19FAQ@delaware.gov).

Individuals with questions about COVID-19 should call Delaware 2-1-1, or email [info@delaware211.org](mailto:info@delaware211.org). Individuals who are deaf or hard of hearing can text their ZIP code to 898-211. Hours of operation are 8:00 a.m. to 9:00 p.m. Monday through Friday; 9:00 a.m. to 5:00 p.m. Saturday and Sunday. Medically related questions regarding testing, symptoms, and health-related guidance can be submitted by email at [DPHCall@delaware.gov](mailto:DPHCall@delaware.gov). Questions regarding unemployment claims should be emailed to: [UIClaims@delaware.gov](mailto:UIClaims@delaware.gov).

In total, 326 Delawareans have passed away due to complications from COVID-19. Individuals who have died from COVID-19 ranged in age from 21 to 103 years old. Of those who have died, 169 were females and 157 were males. A total of 148 individuals were from New Castle County, 56 were from Kent County, 121 were from Sussex County, and one individual's county of residence is unknown at this time.

The most recent deaths announced today ranged in age from 33 to 88. One individual was a female, and one was a male. One was a New Castle County resident and one was a Sussex County resident. One individual had underlying health conditions and was a resident of a long-term care facility.

To protect personal health information, DPH will not confirm specific information about any individual case, even if other persons or entities disclose it independently.

The latest Delaware COVID-19 case statistics\* cumulatively since March 11, provided as of 6 p.m., Saturday, May 23, include:

- 8,809 total positive cases
- New Castle County cases: 3,309
- Kent County cases: 1,340
- Sussex County cases: 4,103
- Unknown County: 57
- Females: 4,831; Males: 3,934 Unknown: 44
- Age range: 0 to 103
- Currently hospitalized: 211; Critically ill: 44 (This data represents individuals currently hospitalized in a Delaware hospital regardless of residence, and is not cumulative.)
- Delawareans recovered: 4,598
- 43,061 negative cases\*\*

\*Data are provisional and subject to change.

\*\*Data on negative cases are preliminary, based on negative results reported to DPH by state and commercial laboratories performing analysis.

Additional demographic data on COVID-19 cases and deaths, including race/ethnicity, more age-specific data and rates information by ZIP code, can be found on the Division of Public Health's [My Healthy Community](#) data portal.

Delaware is considering patients fully recovered seven days after the resolution of their symptoms. Three days after symptoms resolve, patients are no longer required to self-isolate at home; however, they must continue to practice strict social distancing for the remaining four days before returning to their normal daily routine.

Significant statewide expansion of the state's COVID-19 testing program, in partnership with Delaware's hospital systems, community health care centers, primary care providers, and long-term care facilities will allow the State of Delaware to conduct 80,000 tests monthly.

As additional testing sites are scheduled, more information will be provided on the testing section of the Delaware coronavirus website at: <https://coronavirus.delaware.gov/testing/>.

If you are sick with any of the following symptoms, stay home: fever, cough, shortness of breath, sore throat, muscle fatigue, chills, shaking with chills, loss of smell or taste. Other symptoms such as headache or digestive symptoms (vomiting, diarrhea, abdominal pain or lack of appetite) have been identified as potential symptoms related to COVID-19 and may prompt further screening, action or investigation. If you are sick and need essential supplies, ask someone else to go to the grocery store or the pharmacy to get what you need.

If you believe you have been exposed to someone with COVID-19, or have symptoms of illness, make sure to distance yourself from others, particularly vulnerable populations. Older adults and people of any age with serious underlying medical conditions – including serious heart conditions, chronic lung

conditions, including moderate to severe asthma, severe obesity and those who are immunocompromised, including through cancer treatment – may have a higher risk for severe illness from COVID-19.

The hospital systems in Delaware continue to offer testing through standing health facility testing sites. These testing sites require a physician's order or prescription to be tested (\*Bayhealth patients will be pre-screened via phone without needing to see a provider first). These are not walk-in testing sites. Those without a primary care provider can call the DPH Call Center Line at 1-866-408-1899. In New Castle County, individuals can call ChristianaCare at 1-302-733-1000 and Sussex County residents who do not have a provider can call the Beebe COVID-19 Screening Line at 302-645-3200. Individuals awaiting test results should wait to hear back from their medical provider. The DPH Call Center does not have test results.

In addition, the Division of Public Health asks any Delaware health care, long-term care, residential, or other high-risk facility with questions or concerns to email: [DPH\\_PAC@delaware.gov](mailto:DPH_PAC@delaware.gov) or call the DPH Call Center at 1-866-408-1899 and press ext. 2.

DPH will continue to update the public as more information becomes available. For the latest on Delaware's response, go to [de.gov/coronavirus](https://de.gov/coronavirus).
